Dr. John A. Eisenbeiss;
The Lois Grunow Memorial
Phoenix, Arizona.

Dear Dr. Eisenbeiss:-

I did not think I would be so long in thanking you for seeing me and giving me your recommendation for my ailing limbs. Dr. Bobb is still away but she has written to Dr. Overton in Albuquerque, and I shall see him next week.

I came home to a fairly strenuous job which must be completed next week, and then I will have time off for whatever Dr. Overton decides to do.

As of a few days ago, the Xrays have not come back. Would you be so kind as to let me know to whom they were sent and when? I have called not only Dr. Bobb's office, but also the hospital and the Santa Fe Clinic, but I recall that you were going to return them to Dr. Bobb, I think.

Once more thanking you for your examination,

Sincerely yours,
