Mrs. Stewart Udall,
Washington, D.C.

Dear Mrs. Udall:-

I have just delivered to Jim McGrath, the photography for the catalogue for the Maria, Popovi Da, Tony Da show, and he requested that I send the statement direct to you. If this looks like a high price, it is because of the difficulty of much of the work plus having to do some of it on location elsewhere, including most careful prints for reproduction. I certainly like Jim's design for the catalogue, and I hope it will please you.

Regarding the bill for last spring's catalogue which has dragged on for so long, I have listed the items as ordered by Mr. Richman while he was here, and in addition he wrote me that some extra prints which I had sent for choice, were also used in some other way. I am quite ready to settle for the small addition.

I am leaving this afternoon for Phoenix for my appointment with Dr. Eisenbeiss, and on my return will proceed with the balance of the work for the show for Washington. I have no idea what the doctor will proscribe for me or just what will be ahead for me, but unless it should be against his advice, I shall be back to do the other part of the job in a short while.

Hoping that this finds you well, and with the best of wishes,

Very sincerely

P.S. As soon as I return I really will get some new stationary! Because of my lameness, I had to give up my mail box at the P.O. and I just hate to waste a lot of good paper.
