Dear Miss Homer:-

Enclosed please find fourteen subjects, both negatives and transparencies. These are all of Indian subjects to be included in a large exhibition I am now preparing. Some of these you have worked on previously, making the internegatives and some proof prints which were for my book The Enduring Navaho which will be published next month. Prints from this order are for the exhibition. I will mount them. Do not spray anything, and use full negative unless crop is indicated.

There are also a number of new ones which will require internegatives. I think all instructions are quite clear on the individual envelopes. If there is any question, please let me know. On two of this group of 2x3 1/2 negatives, some one wants a 35mm slide of each. Do you do this and at what cost? Please let me know before proceeding.

The large dye transfers to which I referred in an earlier letter were as follows: The Navaho Spinner" to which you referred:- a picture of corn and feathers of which I have ordered three duplicate prints as also of the Spinner. Then there was a third one of a Puenlo Indian Dance. This one I never ordered a duplicate of, and now I would like one if you still have the matrices.

There will still be a few more before this is all wound up, but I must get you started on these.

I enclose my check for \$100.00 on account, and will send the balance when I receive your complete bill.

Thanking you for much good work in the past, I am

Sincerely yours,

LOUISE HOUSER
