Dear Miss Homer:-

I am very late in returning these proofs and completing the Navaho part of the order with you. Due to the publication of the book last week which has caused many delays in other matters. The book is off to a great start here and I hope it will do well elsewhere. I am inclosing a brochure in case you are interested.

The proof of the Navaho spinner is beautiful, all and more than I hoped for. I want two large prints as you will find on the envelope. But please caution whoever works on it that if the folds in the skirt should tend to blue as it is enlarged, to make it smaller if this occurs. I think all instructions on the envelopes are clear, and here is the list.

I enclose \$100. on account. Another order for the other Pueblo Indian show will follow shortly. In the meantime I will need the above order as soon as possible as this show opens Dec. 12. I must mount these and send on to museum. Note also one black and white negative of no. 6. Please send this on airmail special Del. as soon as you can. Sorry for my delay in getting this all off to you.

Thanks for yours good work
