Santa Fe, New Mexico 87501

Dear Miss Gilpin:

Enclosed please find your five rolls #120 processed
Ektacolor film along with two 8x10 "C" proofs.

It appears to us that these rolls may have been sub-
jected to intense heat for too long a period of time,
or because they all show some strong edge fog, small
amounts of this fogging may have crept into the image
areas.

A careful check of our process indicated no processing
problems because rolls of film processed prior to and
after yours were normal.

Very truly yours,

Louise Houser
