Dear Allan:

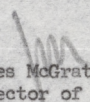

Attached is a letter from Lee Udall to Miss Gilpin about a student to work with her in photography.

I talked with Laura and she will need someone in a week to 10 days to help her on drymounting, general lab work, et cetera. We have Dennis Stover, Athabaskan, who is seeking just such an apprentice type job as he will go into a photography related field, most likely. I would rate him among our top 10 students in all around performance. A most dependable, gifted young man.

When you are able, soon, do call me and let us get with Laura to gain her needs and so work out a schedule with Dennis. Most likely the time would not exceed 12 January for Dennis.

Best wishes.

Sincerely yours,

James McGrath
Director of Arts

P.S. Dennis, by the way, was one of my exhibition arts students who installed, guided and took care of our Alaskan Centennial Exhibit; catalog attached.
