Dear Miss Gelpin

The photographs arrived this morning. beautifully packed and in perfect condition. The post office manages to do so much damage these days that this is a rare and happy situation.

I am indeed very pleased to have these photographs, and also gratified by the continuing praise I hear for the Enduring Navaho - have sold it to people from Europe who are very happy with it. One of the joys of a small store is to have good things for people to buy and enjoy.

I do give you in warm good wishes to you and Miss Foster

Cordially

Marion
