Miss Laura Gilpin
409 Camino del Monte Sol
Santa Fe, New Mexico 87501

Dear Laura,

We have been mumbling among ourselves for a long time, wondering if the exhibit had been found... somehow presuming it had. Incredible is correct! How could it be lost! I do hope you get back the amount it was insured for (at least! It just can't make up for the hours of printing) and the rental fees you lost. No, I have not heard from Emery Air Freight, and they certainly will never hear from me again!

I plan to put up your photograph with the permanent collection in February, but need some time to frame it. So there is really no great rush. At present we do not need the Begay portrait and can wait until have more time.

I am enclosing a list of prints used for our exhibition. It was selected carefully by Peter and myself, with some last minute changes to accomodate walls and panels. Included in the shipment and display was a write-up on you and the Navaho by Peter (enclosing a copy) and a portrait of you.

I hope you are well and continue, despite setbacks, to get your work around.

With regards from us all.

Sincerely,

Oriole Farb
Director
