Shokie, Ill. 60076

Dear Sirs:-

I have your catalogue which you sent me recently. I am wondering if I can purchase from you a set of three casters which would fit into the legs of my Majestic tripod. The interior measurement of these legs is 1 inch in diameter. I would want casters with good brakes.

If it not possible to get casters to fit my tripod, is your HUSKY LV Dolly (No. 95050) strong enough to hold the Majestic tripod and a 5x7 camera. These are certainly less than 50lbs. But I would prefer a larger caster.

Thanking you for any information you can send me,
I am,

Very truly yours,
