Dear Ellie:-

Thank you so much for your letter and the news about the sales gallery. This is something I have always wanted to do and hoped I would have a place here for it. Congratulations and I wish you every success.

Ofcourse, I shall be delighted to participate, and have about ten prints ready for you by June 1. This is more or less a formal acknowledgement of your letter and I am sorry to be so long in answering, but I ever get caught up with my desk or anything else for that matter. I shall telephone you later today so that you will know I am with you all the way.

Good luck and best wishes,
