

Dear Laura: Glad to see the
good review on "The Enduring Navajo"
in latest Natural History
Magazine —

When will the Wash. D.C.

Show come into being — and
what is Hickel up to in those
fields? Relatives of mine in Alaska
have no respect or trust in him
— but I hope that under national
surveillance (sp?) he may not be
as bad as otherwise. I hope your
Show will come to light.

I'm "working like a dog" —
which is the best thing of course.
always best wishes —
