Enclosed is a copy of THE ENDURING NAVAJO which one of our customers wants autographed. Would you be kind enough to do this and return it to us. Enclosed is metered postage for the return tri p.

Our customer is Irene McConnell for this book.

We have so completely enjoyed selling your book in our little Book Nook and you might be interested to know the enthusiasm with which it is received here in the Navajo country. If we had been farsighted enough we would have originally ordered right---this is our fourth order just in.

If we ever get to make a trip to our hometown again, may we bring along an armload of books to be autographed?
