Dear Laura:

John Meem has just told me of your generous gift to the School's endowment fund, and I want to add my thanks to his on behalf of all of us.

It is especially gratifying to me to see how many of the people who have followed the School's programs as they grew are now demonstrating support of them. With the encouragement that gifts such as yours provide, we shall be much better able to continue developing activities that will enhance our position in the forefront of anthropological research.

Please accept my personal appreciation for all that your contribution means to the future of the School of American Research.

Cordially,

DWS:ph

Your contribution of \$10 to the School of American Research is tax-deductible.
