Laura Gilpin
Box 1173
Santa Fe, New Mexico

What new interesting things are you doing now? At least, I hope you're doing something you enjoy. I am not----- just trying to get caught up on my printing. I can't ever remember not having something that needed printing yesterday. Oh well, who ever heard of an organized photographer???

Do you remember Lynette, my beautiful blond friend? She is in two of the photographs you took of me. She had an opportunity to go to New York where she met and was looked at by Richard Avedon. I'm sure she will make the cover of Vogue soon.

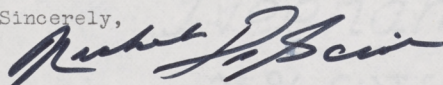

How is your new Nikon?

If you get into this part of the world, please know that you are very welcome here. If I could ever help you by getting materials or whatever here in Denver, do not be hesitant to ask.

Robert Briggs at Lindahls remembers you very well; even the camera he sold you and some of the lenses you had then. He recalls them as being very good ones!!! Robert also said you drove a hard bargain and were a very shrewd trader!

Look forward to seeing you again.

Sincerely,

Nicholas De Sciose

NDS:pr

P.S. Once I get started printing, I really kind of enjoy it!
