Dear Mr. Dunlap:-

Enclosed please find twenty five color transparencies requested last week by some one (I failed to write down the name) from your office or from an advertising agency. In any event I was to send the transparencies to you.

Tese are a selection in large part, from a lecture I was giving a few years ago, and it was understood that I sell you the reproduction rights for the T.W.A. folder and that the transparencies would be returned to me as soon as you would be through with them. One or two are duplicates that I made in order to have the slides uniform in size. None of these have been reproduced though several are similar to black and white studies which are used in my book The Enduring Navaho, University of Texas Press.

I hope that you will find material to your liking. I have not put a price on them, but will you kindly let me know the usual rate you pay for such material. The Agent Shostol in New York has sold a lot of transparencies for me, but these are usually larger ones.

Enclosed please find the list, and each transparency has a caption attached.

Very truly yours,
