Dear Mrs. Gilpin:

Quite some time ago I corresponded with you in reference to a number of your photographs of mission buildings in New Mexico which we were considering for our book on the History of American Art. Unfortunately, there has been a delay in this book, and we still do not know which photographs will be used.

I am writing this time, in connection with our forthcoming book on the Story of Archaeology by Owen Rachleff. We are interested in obtaining an ektachrome of "El Castillo", Chichen Itza, Yucatan, Mexico. We would especially like a view as seen from the Temple of the Warriors - Xerox copy enclosed.

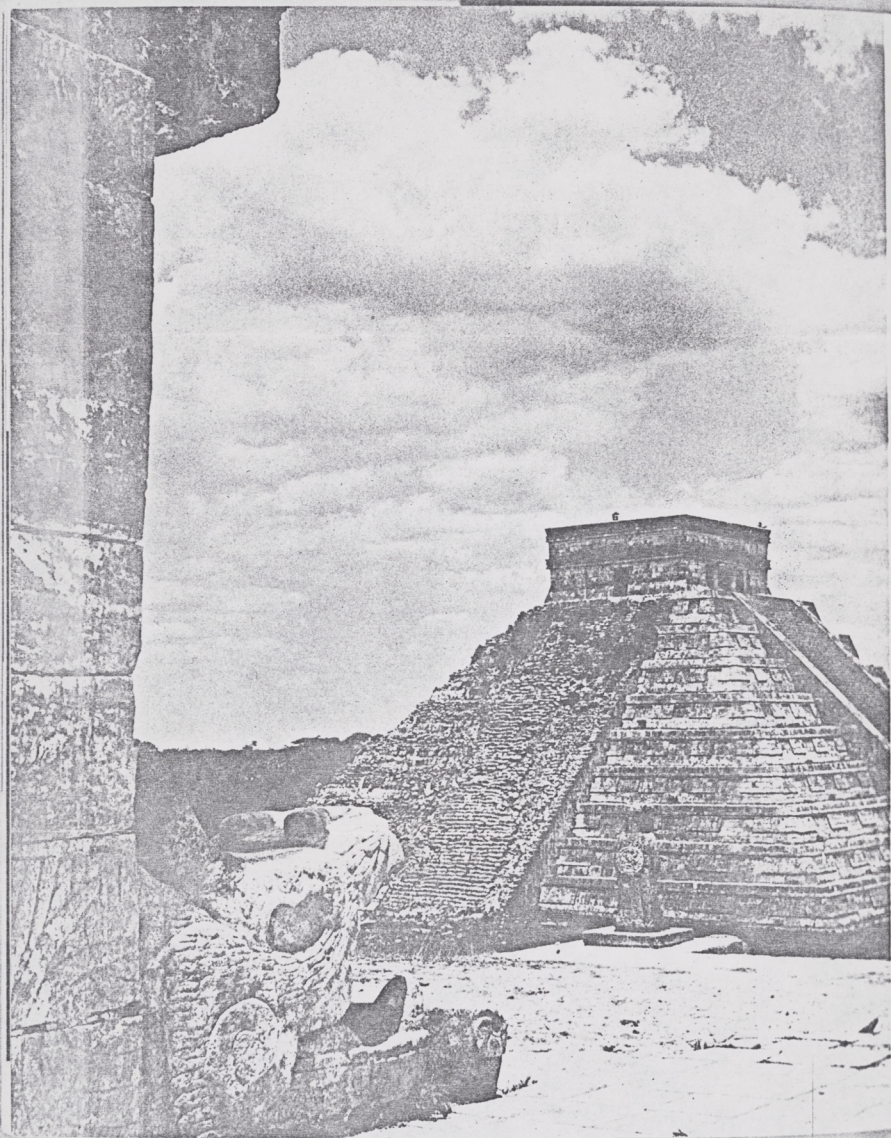

I would appreciate it very much if you could let me know what you charge per ektachrome, and what your color reproduction fee will be; and whether you have an ektachrome of this subject available for purchase or loan.

Thank you so very much for your cooperation and assistance.

Yours sincerely,

Nancy Glassner
