

10/15/70

Dear Miss Gilpin,

I believe I told you I was about to leave for Houston for medical treatment at the Anderson Hospital at the time you took my photographs. I have now completed the first series of chemo-therapy shots with amazingly good results. I cannot complete my program there until early in December and so in the meantime (or between times), I am staying with my brother in Pensacola. So much for the medical report.

My parents anniversary, for which I particularly wanted the pictures is November 10. I wonder if you could possibly send the prints to me here. If you have by chance had your choice one framed, I will send you a check for it and to cover the postage as soon as you can inform me of the amount.

If you have not had one framed,
perhaps I can have it done here.

I am sorry to request this
extra service, but I shall
appreciate greatly your letting
me know at this address.

I trust your Colorado trip
was pleasant and successful.

Sincerely,

Miss Phyllis L. Hoyt
