Laura Gilpin
409 Camino del Monte Sol
Santa Fe, New Mexico 87501

Dear Laura Gilpin:

Thank you for your letter which was forwarded to us from Morton Chemical Corporation, successor to the old Edwal Laboratories at Ringwood, Illinois. Neither they, nor we, sell Ferric Oxalate. You could probably get it from a scientific supply company who sells purified chemicals and laboratory apparatus to universities. If you are anywhere near a university, you could probably get it from their chemistry department or they could tell you where they buy their reagent chemicals.

You might also possibly get it from Distillation Products Industries, a Division of Eastman Kodak Company, Rochester, New York.

We make only prepared solutions for ordinary black and white silver photography as you will see from the enclosed catalog and folders.

Best wishes for your photographic success.

Yours sincerely,

Edmund W. Lowe

1968-69 GENERAL PRICE SHEET

Chemicals for Industrial, Studio, and Home Darkroom use. Suggested retail prices per unit as of Aug. 1, 1968. Actual selling price is determined by the retailer.

Commercial, Professional and Industrial Chemicals

EDWAL FG7 For Film

Use at 1:3 for deep tank, 1:15 for single use. Maximum film speed (2400 on Tri-X, 640 on Plus-X) without forcing. Compensating. For all films.

Sizes—Qt. 6/cs.....\$2.25, Gal. 1/cs.....\$7.25, 5-gal. pail.....\$29.50

EDWAL FG7 B Concentrate (16 oz. only see p.2)

EDWAL SUPER 20
Super Fine Grain, maximum detail developer for Minox and high quality sub-miniature photo finishing.

Sizes—Qt. 6/cs.....\$1.65, 1-Gal. 1/cs.....\$4.75

SUPER 20 REPLENISHER—16-oz. 6/cs.....\$1.09

EDWAL SUPER 12

Used chiefly for large scale replenishment of Super 20 in photofinishing.

Sizes—Qt. 6/cs.....\$1.65, 1-Gal. 1/cs.....\$4.75

EDWAL X-RAY DEVELOPER

Hi-Speed, Hi-Contrast. For dental, medical, or industrial manual tanks.

Sizes—Qt. 6/cs.....\$1.85, 1-Gal. 1/cs.....\$6.45

EDWAL QUICK FIX

For x-ray and general photography. Non-fading for prints, non-corrosive. Gives scratchproof negatives.

Sizes—"1-Gal. Size" with hardener (1 qt. to make 1 to 2½ gal.)

12/cs.....\$1.95

Six-pack (No ind. cartons) 6/cs.....\$1.79

"3-Gal." Professional Size with hardener (makes 3 to 8 gal.)

2/cs.....\$4.25

"5-gal." Commercial Size with hardener (makes 5 to 12 gal.)

1/cs.....\$5.95

4/cs.....\$5.80

"25-Gal." Industrial Size. Plastic carboy to make 25 to 60 gal.

Carboy only, without hardener.....\$18.10

EDWAL ANTI-SCRATCH HARDENER. For "25-gal." Industrial Size Quick-Fix. Plastic bottle packed 1/cs. 80-oz.....\$2.95

CARBOY FITTINGS: Pump.....\$4.95, Faucet.....\$2.95, Probe.....\$2.95

EDWAL Cold Water HYPO ELIMINATOR

Saves ¾ of washing time. Films wash completely in 5 min., prints in 7 min., for S.W. and 15 min. for D.W. even in cold water. No scum or sludge in hard water. Recommended for print rockers or processors. Improves ferrotyping.

Sizes—1-Gal. (makes 16 gal.) 1/cs.....\$4.95, 4/cs.....\$4.75

5-Gal. (makes 80 gal.).....\$19.75

EDWAL T.S.T. (Twelve-Sixteen-Twenty)

Liquid paper developer concentrate. Each gal. makes 12 gal. heavy-duty, 16 gal. commercial, 20 gal. portrait paper developer, and develops 4000 8x10 prints. Lasts a week in a tray.

Sizes—1-gal. 1/cs.....\$6.55, 5-Gal.....\$27.50

EDWAL SUPER 111 Concentrate

Paper developer concentrate for quality papers (Medalist, Opal, Indiatone, etc.). 1-gal. makes 10 gal. developer.

Sizes—Qt. 6/cs.....\$2.25, Gal. 1/cs.....\$6.50

EDWAL INDUSTRIAL INDICATING SHORTSTOP

Triple strength concentrate. Each quart makes 24 gal. standard strength shortstop or 12 gal. for deep tank, x-ray, etc. Changes color when acidity approaches exhaustion. Can be replenished by adding ordinary acetic acid. Prevents over-running the shortstop which can cause scum, stains, or fog.

Sizes— Qt. 6/cs.....\$2.15, Gal. 1/cs.....\$6.95

EDWAL SUPER-FLAT

Print flattener and gloss agent. Acts on paper base. Independent of humidity.

Sizes—4 oz. 12/cs.....\$.95, Qt. 6/cs.....\$3.45, Gal. 1/cs.....\$11.75 or 4/cs.....\$11.50

SUPER-FLAT B

Humectant additive for use with Super-Flat on industrial papers.

Sizes—Qt. 6/cs.....\$2.75, Gal. 1/cs.....\$9.50

EDWAL SINGLE SOLUTION TRAY CLEANER

Size—Pint bottle makes ½ gal. 6/cs.....\$1.35

Darkroom Aids

EDWAL HYPO-CHEK

A test solution for determining exhaustion of both hypo-type and rapid fixers. Tests for the actual amount of silver in the solution. ¼-oz. squeeze-type bottle gives 800 tests.
 Sizes—¼-oz. 12/cs.....\$.95, 4-oz. 12/cs.....\$1.85

EDWAL LIQUID ORTHAZITE

Benztriazole anti-fogant. Salvages out-dated paper. Prolongs life of paper developer in heavy-duty use. Increases fineness of grain with borax-type developers.
 Sizes—4-oz. 12/cs.....\$.95, Qt. 6/cs.....\$1.95, Gal. 1/cs.....\$6.50

EDWAL NO-SCRATCH

A liquid which, when applied to negatives, hides most scratches during enlargement. ¼-oz. 12/cs.....\$.95, 4-oz. 12/cs.....\$3.95

EDWAL FERROTYPTE POLISH

Made from easy polishing waxes and non-toxic solvents. Prevents sticking. Gives high gloss.
 Sizes—4-oz. 12/cs.....\$.95

Color, and Movie, and Non-darkroom Aids

EDWAL ANTI-STAT CLEANER for Color & B/W Films

Makes negatives, slides, and movies completely anti-static and practically "dust-proof." Cleans, lubricates, safe for dyes. No carbontet. Has been approved for use in submarines and other close quarters.
 Sizes—4-oz. 12/cs.....\$.95, Qt. 6/cs.....\$2.75, 1-Gal. 1/cs.....\$9.75

EDWAL PROTECTIVE LENS CLEANER

For all optical glass, coated or uncoated. Lubricates while cleaning, preventing scratches which result from dust particles held in dry lens tissue. Leaves no permanent film. Plastic squeeze bottle. Enough for 800 cleanings. Non-spray, one-amp applicator tip prevents applying excess liquid which might get between lens components.
 Sizes—¾-oz. (for 800 cleanings) 12/cs.....\$.79

Home Darkroom Concentrates

EDWAL FG7 Concentrate For Film

Compensating, maximum-speed developer for all types of film. 1-qt. makes 1 gal. tank developer or 4 gal. developer for single use.
 Home Darkroom Sizes—4-oz. 12/cs.....\$.69, 16-oz. 12/cs.....\$1.29

EDWAL FG7 B Concentrate

For use with FG7 in Edwal FG7 Automatic (two-bath) development.
 Home Darkroom Size—16-oz. 6/cs.....\$1.19

MINICOL II

Very high acutance developer for fine grain film. Strongly compensating, very fine grain. 2-oz. makes 16-oz. developer.
 Size—16-oz. only (to develop 8 rolls) 12/cs.....\$1.19

PLATINUM Developer Concentrate

For prints. Super concentrated. 4-oz. makes 1 qt. Keeps well. For all photo papers, but gives especially handsome results on quality papers such as Medagist, Opal, Indiatone, etc.
 Sizes—4-oz. 12/cs. (makes 1 qt.) \$.69, 16-oz. 12/cs. (makes 1 gal.) \$1.19

SIGNAL SHORTSTOP Concentrate

A photographic acid with a color indicator which changes color when the shortstop approaches exhaustion. The 4-oz. size is double strength and

EDWAL KWIK-WET Concentrate

Non-ionic. Extremely concentrated wetting agent. For 1:200 dilution (compared with the usual 1:200 for most wetting agents). 4-oz. bottle of concentrate is equal to three 8-oz. bottles of ordinary strength wetting agent.

Sizes—4-oz. 12/cs.....\$.95, 16-oz. 6/cs.....\$2.75

EDWAL FILM, GLASS & CHROME CLEANER

Fast anti-static cleaner for light tables, negative carriers, slide glasses, flash reflectors, and all glass, chrome, and plastic surfaces as well as black and white film.
 Sizes—4-oz. 12/cs.....\$.95, 1-gal. 1/cs.....\$9.25

EDWAL WATER CONDITIONER

Makes hard water usable for developers and most other photographic solutions.

Sizes—Pt. 6/cs.....\$2.25, Qt. 6/cs.....\$3.85

PERMAFILM

Liquid preservative for slides, movie film, and black-and-white negatives. Resists fungus, fading of colors, and static. Makes movie film resistant to scratches and fingerprints. Makes film pliable and will often rejuvenate an old brittle film strip.

Sizes—1-oz. bottle 12/cs.....\$1.00, 4-oz. 12/cs.....\$3.45, 8-oz. can.....\$5.95, 16-oz. can.....\$8.95, 1-Gal. can.....price on request.

EDWAL COLOR TONERS

For prints, movie titles, B&W slides. No offensive odors. Single solution toners ready for use after adding water. 4-oz. bottles make 64-oz. working solution. Five colors: Blue, Green, Yellow, Red, and Brown. Intermediate colors obtainable by toning first in one color and then in another.

Sizes—4-oz. 12/cs.....\$.95, 1-Gal. 1/cs.....\$9.75

makes 8 qts. shortstop. The 16-oz. size (standard strength) makes 16 qts.
 Sizes—4-oz. 12/cs.....\$.69, 16-oz. 12/cs.....\$1.19

HI-SPEED LIQUID FIX Concentrate

Extremely concentrated, specially formulated high speed fixer. 4-oz. makes 1 qt, 16-oz. makes 1 gal. Fixes paper in 1 to 2 min., film in 2 to 3 min. Can be added direct to a single use developer in the "Controlled Monobath" Method, thus developing and fixing in a single solution.

Sizes—4-oz. 12/cs.....\$.69, 16-oz. 12/cs.....\$1.19

EDWAL ANTI-SCRATCH HARDENER

For use with Edwal fixers or for making a separate hardening bath. 1-oz. makes 1-oz. acetic acid 28% makes 1 qt. hardener for film.
 Size—4-oz. 12/cs.....\$.55

EDWAL Cold Water HYPO ELIMINATOR Concentrate

Saves ¾ of washing time. Guarantees complete removal of silver-hypo complexes even in very cold water, resulting in permanent, non-fading prints or negatives.
 Home Darkroom Size—16-oz. (makes 2 gal.) 12/cs.....\$1.19
