

Mrs. Millard S. Peabody
33 Old Powerhouse Road
Falmouth, Maine 04105

June 10, 1970.

Dear Laura Gilpin,

I'm flur and the cheque
sat until I could write a note to
you. Really, I think I owe you more
than the enclosed bill. Please
check it and just drop me a
card if I do owe you more. I am
most grateful to have the two large
pictures and feel sorry that I put
you to the extra work of doing
them separately from the first order.

Since I saw you, I have a
daughter living in Santa Fe.
Her husband is a doctor in the
Public Health Service of the state

(He has the part north of Santa Fe -
Taos, etc.) and they have bought a
house at 119 Camino Santander.
Barbara is an artist and she has
just opened a gallery in her guest
house. She couldn't get her pictures
in the galleries in town and didn't
like the tourist "bait" they represented,
so she is showing her own work
and anyone who wants to let her
show his work (if Barbara thinks it
is good enough!), she knows all about
you and if you ever have a chance
to drop in, she would be very glad.

She has four children - from
14 years to five - and a Dominican
Republic woman & her daughter
whom they brought back with
them to this country.

24 They love Santa Fe and the children
have had one year of school there
now. They arrived last August
from a year in the Peace Corps in
Santo Domingo, D. R.

I shall get out next September
and will hope to get a glimpse
of you to thank you in person
for doing all these lovely pictures
for me.

This brings you my love and
my admiration for having
accomplished so much on the
highest level in your life and the
determination you have to keep your
art "in production," with such
refreshing enthusiasm. How you
do this with your domestic com-

plication is a miracle.

With affectionate regards,
always,

Frances Wilson Peabody
