Dear Lanna:

We often think of you, especially when we see Ben or some of the Fountain Valley people. I also recall several photos I made that were successful only because I learned how to use flash bulbs with a time exposure as you taught me in my younger days. We recently purchased your "Enclosing Navajo" and then made a visit into Navajo land last June after an absence of many years. We shall continue to study your book and all we can about the Indians of Arizona - New Mexico. We did make a lot of Kodachrome slides, $\frac{5}{8} \times 2\frac{1}{4}$ " color negs and 1300 FT. of 16 mm color film. We keep up on our photography with our youngest son following in our footsteps. We hope to get back to Santa Fe soon.

Morgan Sinclair
