Santa Fe, New Mexico 87501

Dear Miss Gilpin:

With the help of local artists, University College and Counseling Center assembled an exhibit of art works to display in its new building which opened the summer of 1968. This exhibit has grown and become a continuous display. The exhibit serves a double purpose by making our building a very pleasant place for the students and visitors as well as UNM personnel, and also presents each artist's work in an attractive way. All pictures are priced for sale and information is made available to anyone who inquires.

We would like very much to display some of your photography in our exhibit. We would be especially pleased to have pictures of Indians and other aspects of Southwest culture in view of the new program which has been inaugurated by UCCC to aid bicultural groups in the use of the English language.

The University College and Counseling Center is located just north of Johnson Gym. It would be a privilege to take you on a tour of our facilities so that you can see what space is available. If you are interested and would like to consider exhibiting some of your photographs, please call or write to me at your convenience. Our office hours are Monday through Friday, 8:00-12:00 and 1:00-5:00.

We hope we have been able to arouse your interest and that we will hear from you in the near future.

Sincerely yours,

Willa Slack
(Mrs.) Willa Slack
