Dear Laura:

This is just a little note of formal confirmation for your Navajo talk, which we have scheduled for 8pm on February 15 at the Greer Garson Theater. I am enclosing a memo we have prepared for our lecturers which tries to clarify the logistic arrangements so that there are no last-minute confusions.

Since I'm leaving the School next week, Bruce Dickson will be handling arrangements here for you. If you are going to use lantern slides rather than 35 mm, you will probably want to go over the details with him in advance; publicity will be another area he will be concerned with. And if there's anything I can do to make things run more smoothly, please be sure to let me know.

A minor operation has kept me more or less inactive for a couple of weeks, and I haven't gotten much more detail work done on the possibilities for an expanded Indian Arts Fund program yet. I shall surely be in touch with you again next month, though, before I go east.

Regards,

Peter Dechert
