Mr. Richard Hogue,
Meisell Photochrome Corp.
Dallas, Texas.

Dear Mr. Hogue:-

Recently I sent over to your plant a 35mm negative and a small print. The order was for 150 copies for a Christmas Card. This is for Bishop and Mrs Everett Johnes of San Antonio, Texas.

This was returned to me with the enclosed letter. Is there not some other part of the Meisel Corp. than can produce these prints for me. Bishop and Mrs. Jones have asked me to handle this for me and to mount the prints when I receive them. If it is possible for you to print a Japanese negative, surely you can make an inter negative of the the very nice little print which is also enclosed? I should have written to you ten days ago, and I hasten this off to you now. Will you please telephone me when you have looked at this and tell me just what you can do about it? Also the approximate cost on whatever kind of job you can do. I urge your immediate attention to this matter.

I had no idea that there could be such a difference between Japanese negative film and our own.

I am sure that I have a credit in my account on other recent work you have done for me as I sent a check on account for part of this as well.

Very truly yours,
