Mr. Richard Hogue,
Melsel Photochrome Corp.
Dallas, Texas.

Dear Mr. Hogue:-

I am enclosing herewith a color negative and a proof. My customer has chosen this rather than have me do this sitting over. I seem to make color shots in a lighting I use so often in black and white and end up with very difficult things to print. This will have to be masked I am sure and probably special handling. The customer will pay whatever is necessary for good results.

Will you please put this job into the right hands. Mask it to get the best results from the window etc. Please let me know what you can do with it and what the cost will be. The order will be for 20 or 24 prints. Please send me another proof first and I will let you know if the order will be for 4x5 or 5x7 prints.

Thank you very much for past good work.

Very truly yours,
