MORGAN

Dear Laura:

A very sensitive and intelligent man, Jim Halliday, from California Historical Society, with a fine assistant, Renee Trimard, who I knew when she worked at Asia House here - were here - and I spoke enthusiastically of your work - and the timeliness and need for a major showing of your great Indian photography - and they - I hope - may do something?!?

Anyhow - I think of you - and your work - and the magnetic field of your life and all you give out to people. Rare + wonderful - so

lots of love to you and I hope
all goes well — My warm
regards to all the beautiful
people you tuned me in with —
No wonder Nancy + Beaumont
are happy to be there —

Good luck — Love

Barbara
