Gentlemen:-

You have just sent me the 5x7 Deardorf camera I ordered recently, and I find I shall have to have a recessed lens board ofr my 100mm wide field Ektar (for the 4x5 back). I am enclosing my check for \$7.50. At the moment I cannot find the pages from your catalogue. This is doubtless more than the regular lens boards, and I hope this is sufficient. If not please send C.O.D.O for th the balame.

I am hoping the case I ordered will come in in today's mail. I must have everything ready for a field trip in two weeks.

Very truly yours,
