Altman's Camera Co., Omc.
129 N. Wabash Ave.,
Chicago, Ill. 60502

Dear Sirs:-

Following my order for a recessed lens board for my Deardorf Camera, I found that by manipulation of the two adjustments on the lens board mount I could bring the 100mm wide angle lens into focus on the 4x5.

I am returning this order unopened and will you please deduct the shipping charges from the deposit I sent you.

I have been having difficulty in finding a good carton to return the case (\$40. for the deardorf but hope to get this shipped to you today. I hope you have already sent the 5x7 film holders as I am leaving on a field trip on Friday. Will be gone 10 days and will get all squared up on my return.

Very truly yours,
