Dear Sirs:-

I have decided to keep the utility case for my Deardorf after all, for a home storage case. Have a good leather case for field trips.

Recently I ordered 6 5x7 film holders in exchange for the utility case. As I am leaving town for a field trip on Friday and the film holders have not come, I assume that you are holding them until the case is returned. As I need the film holders immediately, I have located some at Los Alamos and will have them to-morrow. Therefore please ~~cancel~~ my order for the six film holders. The recessed lens board came yesterday and I returned it unopened for the reason I explained in my last communication.

There me be small difference between the check I sent you for the recessed board, and the cost of the postage. Otherwise I think our account is now balanced.

Thanking you

Very truly yours,

Laura G. / pin
