Dear Mrs. Freeze:-

Thank you so much for sending
me the copy of A CANNONEER IN NAVAJO COUNTRY. I
am delighted to have this.

For a long time I have known of your facilities
for preserving photographic negatives, and as
I am approaching that age where I had best be
thinking about what disposition I should make of
mine, I shall put it in writing that I want all
my Central City negatives to come to you as well
as any other Colorado material of mine that you
would wish to have, with the exception of the
Mesa Verde work which I feel belongs with the
other archaeological negatives of the Southwest.

I should indeed like to see your department and
I hope I can come to Denver before too long, but
I seem to be in deep and never get caught up.

And thank you very much for your kind words about
my efforts, I do appreciate them.

With best wishes for the Holidays, and again my
thanks for the book,

Most Sincerely
