MORGAN

Very dear Laura:

Marcia Keegan has told me of the passing of your dear friend. Since there are simply no words for this - as I know too well - I simply want you to warmly know that my spirit is actually with you. And that in this wrenching loss I am more vividly aware of your own profound and generous presence - the salience of your work - and the ambience that flows out to people - old and young - Indian and non-Indian, from you as a real human being and ^{as} a universal soul.

And so - love to you dear Laura
