

SIXTEENTH AT H STREET, N.W.
WASHINGTON, D. C. 20006

11-12-42

Very dear Laura:

I hope you are
all past the BCG — and in
good health, and Mitch, Sally
and I all missed you very
much — and we missed
Beaumont and Nancy, too.

Russell Lee flew in from
Austin, and some other friends,
and it was a fantastic thing,
and interesting installation in

the beautiful building —

I did a brief T-V interview
and an explanatory talk
to their docent group —

There is so much human
"warmth" in the air, compared
to New York, and the
WILDEKS are wonderful —

Sally took me and a friend
from Smithsonian, who had
flown down — to see her
favorite fossil place —
terrific.

So now I'm cooling off here
in Wash. D.C. hope I get
back to Scarsdale & the
next project.

So, dear Laura, I am
wishing you every success
with the Caugm de Chelly
project, and with everything.

Much love, and gratitude
and admiration —

Barbara
