Dear Laura:

Dorothy Smith, former curator of the Pioneers' Museum and I have just finished a small book about Henry McAllister, friend of Palmer's and long time resident of the Springs. The booklet is based on an MS Major McA;listier wrote in 1908 about Colorado in 1872 and he describes the "Rolling hills, the dark canons, the mighty mountains soaring above ..." in a manner that so reminded me of the wonderful photo you took years ago of the front range at sundown - I think you took it from the B'moor Polo Field - North and South Cheyenne canons in the foreground and the whole in misty profile against the sky.

Father had a big copy of it, but one of my brothers took it.

Would it be possible to obtain one from you ?
If not from you, where else ?

We will greatly appreciate your kindness in helping us obtain one for publication.
Am enclosing a card for your convenience in replying.

Cordially yours,

Polly K. Ruhtenberg
