Dear Laura:

Thank you for your SCULPTURED
LAURA - and thank Una. I am glad it
will be in the museum, and thank
you for the serial Canymde Chulley
and I wish Willard had been with
us at my wonderful slide showing -
All the young people were very
"moved" by it and by you.

And thank you for the "Letter to the
Editor Magazine" —

But mostly - thank you for
being you - and being with U.S.

Always love and blessings to
the great Canymde Chulley project

which will be a great consummation
of your great lifetime work and at
the same time a much needed
overall vision of this rare

SANCTUARY which interrelates
Man & Nature in a cosnically haunting
interrelationships.

We'll always remember you
Wit, Jennifer and I — and
we hope we'll see you more often.

I wish your relative all best recovery — and
I'm sure your presence will be a great lift.
So much love to you —

Barbara
