May 24, 1973

Dear Laura,

Just wanted to tell you that the contract for the Taos book includes a memorandum authorizing you to approve reproductions of your photographs before they appear in print. The chief manuscript editor of University of New Mexico Press says that as soon as they choose a printing firm to produce the book she will tell them to provide her with an extra set of the prints of the reproductions which she will send to you. I, too, will keep an eye on this.

Hope everything goes splendidly with you, and hope to see you soon.

As always,

Claire
