Dear Laura:

The University Press says (as of two days ago) that it is waiting for proofs of your photographs which it can submit to you for your approval.

The price has been changed to \$10.95 which I think is a good move. I didn't see how they could do justice to your photographs at an \$8.95 price.

Incidentally, I noticed that the book includes twenty-nine of your photographs. Since you contracted with me for only twenty-five I obviously owe you for four more. I enclose my check for \$120.00 to cover the four additional ones.

I hope the Canyon de Chelly thing is going on famously. Up to now you are having wonderful weather for it.

All the best,

Claire
