MRS. FRANCIS M. FROELICHER
1437 NORTH NEVADA APT. 3
COLORADO SPRINGS
COLORADO 80907

My dear friend Laura —

I was so happy to witness
your triumph at the C. S. Fine Arts
Center yesterday!

I did not stay for the reception
because I wanted to tell you
privately how much it meant to
me to review again all that
Francis and I loved of the country
and the Indians during the twenty
years we traveled from Fountain
Valley through the South-West.

Francis loved to photograph
the mountains of Colorado, where
he spent so much time climbing.
You developed and printed and
put into albums so many of

his favorites which I now cherish
and the children have records of -

I returned here ten years ago,
and am so thankful to be again
in the country we loved so well -

Now you have my endless admir-
ation for over coming your arthritis
to the extent of being able to charm
a large audience with your
understanding of the Indians
and a beautiful tribute to them
and the country we knew in
1930 to 1950. - Your record is
so important and I feel it was
a great privilege to have heard
and seen it yesterday as times
are changing so fast the
present day traveller cannot
know it as it was -

Affectionately Elizabeth L. Frolicher
