

1984

Dear Jim:- It was good to hear from you and to know of all your activities. In order to get a big print made of the Popovi-Maria color transparency, I have just recently heard about a young fellow here who is doing color custom printing. So I have tried him out. Result - a mazing. I took the print out to San Ildefonso yesterday. Maria and Anita delighted. So it is in the mail with this letter. Am sending it unmounted in a tube which I know is much safer than any other way and you can have it mounted over there. I do hope you will be pleased.

Incidentally, Anita told me she had been hunting for for a record of that wedding vase! Said she could not find an record of it and had no recollection of it ha ving been given to you! I willishowher herulabthetter textatimetimee her,her.

Everything hectic and busy here. Lots of problems in the U.S.A. Now with a new President installed we hope we can pull out of the mess we are in.

Must get over to the P.O. so that the picture
will be in the mail before noon on this Saturday.
My best- take care- delighted you are having
such a fruitful and wonderful time-

Yours,
