New York. 12047

Gentlemen:-

Mr. Paul Caponigro, photographer, has shown me your catalogue and sample book of your Superfine acid free papers. I have been a maker of hand coated platinum photographic prints, and am now looking for a smooth finish. Previously I have used Reeves and Arches hand made papers. I would like to try your Superfine text paper. There is no price list with the sample book Mr. Caponigro showed me. I only need one or two sheets to ~~test~~with. Can you send me, say two sheets of the smooth finish, white 100lb weight. You could cut this to size 11x14 which would ship more easily. Either send this C.O.D. or I will send my check when I know the amount. Also let me know if you can sell me as small a quantity as 100 sheets. I would like to have a sample book for my own file.

Very truly yours,
