Dr. Van Kirke Nelson,
P.O.Box 1175
Kalispell, Montana

Dear Dr. Nelson:-

I was glad to receive word that the photographs reached you safely. These days I try to send things by United Parcel Service, but found that they cannot yet send to Montana! This surprised me. California also, but elsewhere in the country, is O.K. Parcel Post these days is an uncertain quantity.

Once again my apology for being so long. I enclose a statement of our account. As you see I gave you a discount for the number of prints you wanted. Two or three were added before you left, so here is the account for all.

Last year I had an exhibition at the Lee Witkin Gallery in New York. They did very well with it and they are now my agents. Since then, they have increased the price somewhat. The enclosed statement reflects my old prices.

I do hope you all enjoy the pictures. I am coming along with my deChelly project, and will hope to finish it up next year.

This brings my best wishes to all of you

Cordially
