

April 19,
1974

Mr. Albert E. Ward,
Acting Laboratory Director,
University of New Mexico.

Dear Mr. Ward,

Thank you for your inquiry regarding
my photograph "Shepherds of the Desert". Certainly
I have the negative. This picture is the frontispiece
in my book, The Enduring Navaho, even though I made it
as long ago as 1934. Permission will have to be secured
from the University of Texas Press, and credit for them
as well as for myself. Do you have funds for the
usual minimum fee of \$25. for such use? I am still
a working photographer. I cannot grant permission
to copy this post card, but I can furnish you with a
print.

Yes, I have much other material of the four corners
and that region in general as well work of the Chaco
area.

Sincerely yours,

Laura Gilpin
