

[1974?]

Dear Laura,

am on a plane flying
back to New York from
Oklahoma which I
did 2 weeks ago.

a friend was having
a nervous breakdown and
~~I had~~ brought her home
to her parents in Tulsa
it was that one letting a
psychiatrist put her in hospital
so it has been hectic.
now I'm flying back to
help arrange her things
and her two small children
anyway

I want to tell you
I followed up - that
girl that wanted a
quail behind cactus
called me and said
she wanted the same little

2.

girl doing several things
from my stock file.

I said either they
had to ~~be~~ rewrite the
script or have ~~go~~
someone photograph it.
So to make a long story
short they decided to
use drawings! Isn't
that wild?

I got Betty's note and
I hope the people got
her a film strip in time

I would like for
it to be given to
Emily Barnes for the
association.

I gave Dr. Bobb's
name to Loke Turpen
before I left Albuquerque
He was planning to
see her, however
he past away
3 days after I left

3.

He was a very old friend
and I all ready miss him.

I also was shocked when
I heard Stan Aiello who
was at Taos Pueblo had
a sudden heart attack and
passed away about a week
ago. Both of them are
special friends to the Indians
and to me. Don't you ever if
these are friends of your's also.

so called Doug & Lillian
Morgan but they weren't
is, however ~~she~~ did
speak to Barbara Morgan
and told her how great
you were looking
and how I had a
wonderful time seeing
you. She told me
about her exhibit she
is planning at the
Institute.

I haven't ever been to Grossman's office yet since I was back. I barely got unpacked when I had to up and leave again (however this time no baggage) anyway the crisis is over and now I'm returning to start getting organized.

I heard my pictures arrived but haven't seen them. They told me by phone, they think you are a great photographer and like the side view best. Can't wait to see them.

My book has now been delayed again and will come out May 24th.

Hope all is well with you. Will keep in touch.

Much Love,
Marcia
