dear dear Laura: Wonder - full.

Your warm letter and photograph of Maria & Po and got arrived so quickly. Thank you so very much. Indeed, the young fellows work on The print is amazing... you must keep good contact with him.

Really did not know Anita was unaware of my having the wedding jar. Of course, it will return to Jan Ildefonso one day where it belongs... if a will has any strength in such matters. It brings such peace and joy in its presence here with me in Japan... you know.

I think of you often and do feel good recalling our brief visits from time to time in the neighborhood _____ take much care, dear heart - greet Bertha Mrs. Bibber, Betty T. etc etc etc.
Much love to you _____ (over)

oh! yes! I too am into acupuncture.
Based on what Dr. Bobb told me
about my muscle-contraction in
my leg, I go to a deep massage-
acupuncture man only 5 minutes
from the house! Amazing luck.
Really doing so much better —
gives blood pressure counts (mine
is so normal it is sickening!) tests
for "heat-areas," then a deep total
massage, and in each visit about
42-48 acupuncture needles. Completely
without pain ^{now}! Only 3 so far, in the particular
muscle-area: give some electric-shock
type reaction. Amazing. I am surprised
at the cost: 3000 yen - \$10 down to 2000
yen, about \$7 for each session. I feel
like a young boy again -- but just
on the day I visit him! — otherwise,
I feel great in old age!!

The Indian exhibit thing looks a
long way off again — — but positive.
Again — thank you for the color print
and the time you got the signature.
It brings me joy — Love to you
Jim
