6 July 1977

Dear Laura —

It was kind and thoughtful of you to call. I'm sure that Pat Fuller gave you the details of the accident. It is a miracle, truly, that both of us and the other ten on board the float are here today. Nancy is recovering successfully. We'll probably be here a week or so more. I have a kitchen-apt. so I can cook for her. The hospital food she can hardly eat!

The film is excellent. I am proud of the job Bebe did. And you are super! I had hoped to show it to you by

2/ now, but that will have to wait a bit. We hope to distribute it nationally. It's unique - nothing like in teaching of photography films. Thanks very much for your great cooperation. Will call you when we get back to set a time for a preview + celebration.

And your data sheet just what we need.

all best
as ever

Beaumont
