Dear Miss Gilpin,

Your note requesting additional prints of the Lawrence Ranch photo reached me in Madrid earlier this week - kindly forwarded by UNM.

I plan to be back in the States about a month from now (early May), and if the photos would still be useful to you at that time, I will be happy to send the negative. I realize that you were in a hurry a month ago already, so perhaps this delay is just too long to be of any help.

At any rate, I have the negative in Wisconsin at my parents' home (stored with the rest of my "things"). I will be going to Wisconsin first on my return, and could easily mail it from there.

If you would indeed like me to do this, drop a note c/o: 940 Michigan Ave.
Stevens Point, Wis. 54481

My parents will be holding all mail for me there, so that I will receive it upon my return in May.

Have been having a glorious time these past months, with the greater part of it

spent in Spain - including two months on the idyllic island of Ibiza in the Balearics. What a beautiful land, and with many shades of New Mexico - - so that I am given to nostalgia from time-to-time.

Hope your work is going well and that you are in good health. Would like to come by for a brief visit when I am next in N.M. - probably for a week in June. After that, I am considering settling in Boulder, Colo. - - but then, my future is always very "loose" and subject to many changes in plans.

Again, I am so sorry that I've not been able to be more helpful in answering your request on time. But please do let me know via/ Wis. address if you would still like to have the negative in May.

Sincerely,
Mary Dertel
