Dear Ms. Gilpin:

We have recently completed our portfolio viewing area. This permits visitors to our gallery to see the works of many different photographers in a more relaxed atmosphere.

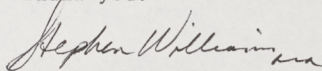

Each portfolio is fully insured and stored in an archival print case. They are viewed under careful supervision.

To date we have portfolios of Edward Weston, George Tice, Ansel Adams, Paul Caponigro, and lesser known photographers.

We would very much like to be able to include your work in our collection. Since we are a non-profit educational corporation, we are able to charge only a 30% commission on print sales. Prints would be considered on loan. You may recall them or change prints at any time.

The completion of the portfolio viewing area will help us realize our goal as a true center for photographic interest.

Thank you.
