Dear Laura,

We're looking forward eagerly to your arrival with your exhibition. Delighted to hear via Hazel R. that you've had such success with sales in Santa Fe and I can imagine that you are probably working much too hard every minute getting duplicates made.

I hope you received my letter (one never knows these days when or whether mail gets through) of a few weeks ago urging you to stay with us before, during, or after the hanging and opening here. I do know that the Abbots want you to stay there where you'll be nearer and can work conveniently until the opening, and we understand that it'll probably be better for you.
