

February 23,
1975

Mr. George Ewing, Director
Museum of New Mexico,
Santa Fe, N.M.

Dear George:-

Now that the end of my retrospective show is about here, I do want again to tell you how much I appreciate all the work and planning that went into it by so many of the staff of the Museum. The person who heads the list is Anne Noggle, curator of photography, who was after me for months to pull all this work together. Her faith in me and her judgment of my life long efforts have meant a great deal to me. Everyone on the staff of the Fine Arts Museum has done so much as well as the initial send off by the Board of Regents and Foundation Board; to one and all my heart felt thanks.

That I have been indisposed for so long has been a real regret, but I am better and more rested now, and hope that I will be able to finish up all the details in the very near future. I am simply amazed at the orders for prints that have come in, and I assure you that I will execute all of this as quickly as I am able.

I have known the Museum and many members of its staff over a very long period of time, I suppose nearly fifty years, and so I again thank you of the present as well as so many of the past whom it has been my privilege to know.

Best sincerely
