The H & W Company
Box 332
St. Johnsbury, Vermont 05819

Dear Sirs;

An old and good friend of mine in Colorado Springs, Myron Wood, has shown me the remarkable results he is getting with your film. I do not find any local stores carrying it, and perhaps you could send me a package of 35 mm. and I can send you a check by return mail or send me your price list first. I also want several vials of the H & W Control Developer. I notice that you have listed 120 size film. Do you spool this in 620 size? Or would you spool some film of this size on 620 spools, if I furnish them to you? I still use the Kodak Medallist, which requires this size and I would like very much indeed to try this film in it. I have been saving spools for some little time in the event that I could find someone who could respool 120 to the 620 size.

I will be looking forward to hearing from you.

Very Truly Yours,

Laura Gilpin
