Dear Paul;

Thankyou for your nice letter and I am very glad you enjoyed the evening in spite of...! Since you were here there have been a number of people in and I have sold several more prints and at this point, I cannot remember which one it was that you have. Would you be so good as to let me know and I will send you another label pronto.

Our morning in Boulder was simply super and believe it or not, I have not yet had time to process my negatives, but I hope to do that in the next day or two. I hope something will bring you down this way again soon and that you will drop in to say "hello".

Very truly yours,

Laura Gilpin
