Dallas, Texas.

Dear Mr. Woolley:,

On my return recently from a field trip, I received the prints made for me by the General Graphics Services, in California. The photo mural of my photograph "STORM FROM LA BAJADA" which was ordered for you from my retrospective exhibition in Colorado Springs. I ordered two prints, one for you and one for my own studio. The General Graphic Services had improved these two new ones over the one made for my show here. I am very pleased these.

On my bill from this service, I find that they have charged me with the crating and shipping of the print to you. The amount is \$30.00 which I have already paid.

I do want to know that you have received the print and that everything is to your satisfaction.

Very truly yours,

Laura Gilpin
